Gov. Willis has given the state of ficial plum tree a vigorous shaking since he became chief executive but there is still a little fruit left worth the time of patriots going after.

At Indianapolis Monday Ralph De Palma in his Mercedes broke the track and world record and won the 500-mile sweepstakes race with an average of 89.84 miles an hour. More than 75,000 people witnessed the performance, evidence of a desire to experience the thrills that come from seeing men take chances on being dashed to kingdom come.

GLAD TIDINGS

I heard a song of gladness A floating on the breeze; A melody of cheerfulness Amid the leafy trees.

The robins were alaughing So merrily and gay; The sparrows cheery cheerying

Anear and far away. The gay and sprightly wren Was warbling its lay;

The lively chicks and clucking hen Were busy all the day. The bluejay and the blackbird

The swallow and the dove, Were chattering and cooing Their melodies of love. The clarion notes of bob-white.

The red bird's allegro Delight the hawk that skims the height Above the jolly crow.

The blue bird and the bobolink; The thrush and oriole; The flicker and the meadowlark

Cheerup, cheerup the soul. These happy voices ringing With gladness sweet and low

Were cheerly abringing Glad tidings here below. To souls that are responsive There is a knowing call:

The voice is then susceptive To heart throbs great or small.

Executive and Teuton Ambassador Confer in White House---Nation's Chief Resumes Work On Rejoinder to Kaiser.

Washington, June 3 .- Following the conference of Ambassador Bernstorff and President Wilson at the White House, the German ambassador is said to have gotten in touch with his government at once while the president resumed work on drafting the re-

joinder he will send to Germany. Count von Bernstorff, after the audience with the president, said that both were trying to find a way out of the difficulty and that he had met with a cordial reception from the chief ex-

At the German embassy it was declared the atmosphere was much clarified by the talk and that embassy officials were more hopeful.

The president received the ambassador in the historic blue room of the White House. Count von Bernstorff motored to see the president in a pouring rain and was immediately ushered to the blue room, where he chatted with the president on a davenport for half an hour.

With the exception of the half hour son spent the entire morning in his study working on the new note which officials expect will go before the cab. Youngstown, Ohio, and will be furnish. inet Friday and be dispatched to Ber-

lin immediately afterward. Inasmuch as the conference was of an informal character, no announcement concerning it was expected to be It was understood, however, that the object of the ambassador's call was to gain from the president an idea of the points in the last American note which the United States is de termined to insist upon and to give the president an idea of the German viewpoint,

The president, it was said, showed willingness to explain the position of the United States and to make it clear that it had been decided on only after careful consideration by the cabinet, when it was decided to send a note of inquiry asking whether the imperial government would abide by the prin-

ciple of international law. The president, it also was understood, gave his views, expecting the ambassador to enlighten the Berlin government of the earnest intentions of the United States to obtain a strict accountability for the loss of Ameri-

cans on the Lusitania. The importance of the conference, however, lies in the fact that although the interview was sought without instruction from the German government, the views which the president might express to the ambassador would be transmitted by the latter to Berlin and would naturally be taken into consideration there in connection with the note which the United States government plans to send before the end of the present week.
